

Learning Objects, (The Le@rning Federation's repository of digital curriculum resources for educators), are available online via the Scootle site. Scootle is regularly updated & offers the possibility of creating student learning paths specific to your teaching needs.

To use Scootle you must register as an SMC staff member. - **PLEASE NOTE:** registration is for teacher use only, do not pass registration information on to students!!! - only staff log on; once logged on, you can then create learning paths that students can access with a PIN that you provide.

Use your St Michael's College email address to register at:

<http://www.scootle.edu.au/ec/register.action?key=UBfqizbf>

Once registered you can make full use of Scootle resources at www.scootle.edu.au (link also on the Learning Areas page on the SMC Intranet).

Below is a sheet created by Anne De Nicolo from the CESA that explains the registration process, and how to make content available to students using a PIN – it takes only a couple of minutes to read & covers all the basics; it may be worth starting with this.

Teacher access to Scootle

REGISTERING FOR SCOOTLE USING REGISTRATION LINK FOR YOUR SCHOOL

- ☐ **Step 1** Open Scootle registration link for your school > **Create New User** using your **school email address**

Create your own password:
password must be at least 6

Create New User

Please provide the following details:

* Title

* First name

* Last name

Current role

* Country

Group

* Email (this will be the username)

* Password

☒ I have read & accepted the Terms & Conditions

☐ Do you wish to receive communication from Education Services Australia?

☐ I have read and accepted the Terms and Conditions

User registration was successful.
An email has been sent to your email address.
Please follow the link provided in the email to **CONFIRM** and complete the registration process.

- ☐ **Step 2** Confirm email sent to school address to complete registration process

LOG IN WITH YOUR EMAIL ADDRESS

Log in via your **education network**

Use this login if you are from one of the education networks below:

 CNA

 Education & Communities

 Tasmania

 ACT

OR

Log in via **Scootle**

If you already have a Scootle account please log in below:

YOUR SCOOTLE LOG PROVIDES ACCESS TO ADDITIONAL LEARNING SERVICES

Improve

Improve is a formative assessment tool that supports teaching and learning. Teachers can access and use numeracy, literacy and science test items that are digitally linked to relevant curriculum and learning resources in Scootle.

Scootle Community

Scootle Community allows teachers to share a professional space online. It is built for the Australian context and populated with content from local teachers.

Languages Learning Space for Chinese, Japanese and Indonesian language teachers

Teachers can register students enabling access the Languages Learning Space

Student PIN access

LEARNING PATHS AND STUDENT ACCESS

When selecting content in Scootle you can create **Learning Paths** to organise a lists of favourite digital content, and annotate these lists. Teachers can create learning path folders in Scootle to manage learning paths.

This icon represents a learning path in Scootle. A learning path allows you to integrate selected items of digital curriculum content with learning tasks for students.

Students are provided with a unique PIN to allow them to view and use the content and activities online. The learning path opens in the edit mode and you can select from the following 3 ways to make learning paths available to students using the PIN generated in Scootle.

When you create a learning path it will open in the edit mode displaying student PIN. Once resources are selected in a learning path, students can access the learning path by using the PIN generated by SCOOTLE using one of the 3 options.

Copy PIN or URL for an individual learning path for student access:

Title: Child Migrants to Australia
Description: After World War II, many children were brought across from overseas countries such as the United Kingdom. The digital content path can be used to provide stimulus for student discussion and reflection.
PIN number: KCTGGN
